There are more than 101 ways to cook eggs. Each method is different from the other. Some of these methods require skill and experience, and even special tools, while a handful can easily be done by anyone.

Cooking eggs is probably the first thing that you learned when you started to learn how to cook. In fact, egg is one of the easiest ingredients to play around in the kitchen.

I got interested in cooking at a young age. Back then, I started to learn basic things; one of them is frying eggs for breakfast. Frying an egg might sound simple, but it can be challenging if you are doing it for the first time. After practicing which resulted to something like a dozen burnt eggs, I got the hang of it. I gained experience and developed my cooking skills. Eventually, my burnt egg days were over. I became aware of the many ways to cook eggs.

There are 4 basic methods to cook eggs: frying, boiling, scrambling, and baking. Each of these methods has different specific ways or styles. For example, frying an egg can be done in at least 5 ways. The next time the server at i-hop asks you how you want your eggs done; you will know what exactly to say once you read-on.

Here are 10 basic ways to cook eggs:

1. Over-easy.

One side of the egg is cooked in a pan with oil or butter. When the side being cooked is done, the egg is flipped to enable the other side to cook for a few seconds.

2. Sunny-side up

This style lets only one side of the egg cook. The other side is slightly cooked by the heat below. The yolks are left in its liquid form. It was called "sunny side up" because the appearance of the egg resembles the shape of the sun.

Working from home has become the new normal for many of us in Singapore. Over the past two years, such arrangements have become default, with many workplaces choosing to keep their employees safe by letting them work remotely. While being away from the office does have its perks, for some of us it can, quite literally, be a headache! Read on to find out why, and when you should do something about the pain in your head.
